Objective

Motivated and detail-oriented second-year BTech student in Computer Science and Engineering, passionate about learning new technologies, solving problems, and contributing to real-world software projects. Looking for internship opportunities to enhance my skills in programming, problem-solving, and software development.

Education

Bachelor of Technology in Computer Science and Engineering (BTech CSE)
Siksha O Anusandhan , Bhubaneswar — *2023 - Present*

- Expected Graduation: 2027
- CGPA: 8.77

Skills

- **Programming Languages**: Java, JavaScript
- **Web Technologies**: HTML, CSS, Bootstrap, jquery
- **Database Management**: MySQL
- **Tools & Frameworks**: Git, Eclipse, Visual Studio Code
- **Software Development**: Algorithms, Data Structures
- **Others**: Problem Solving, Team Collaboration

Experience

Intern at ITR, DRDO, Balasore from june - july 25

Topic - Key-Dependent Dynamic S-Box Based Fault-Resilient AES Implementation

Developed a modified AES encryption system utilizing a dynamic S-Box generated from the encryption key to prevent fault analysis attacks. Implemented fault-resilient logic to detect and mitigate injected faults, thereby increasing the security and reliability of AES for real-world deployment in embedded and secure communication systems.
